

New Speakers Confirmed

BD Biosciences Industry Days

A roadshow of talks specifically tailored to those working in the biotechnology, clinical research and pharmaceutical industry. Join leaders in the field and BD experts for a day of knowledge sharing and technological showcases. Both days are expected to kick off at 10am and finish before 4pm, but a full agenda will be circulated to those that register.

Trinity Centre, Cambridge Science Park 28th June 2018

Operational efficiency - workflows to minimise risk and optimise turnaround	Dave Bloxham, Addenbrookes Hospital
BD advancements in automated sample preparation	Ian Gerrard, BD Biosciences
Looking deeper into the cell with genomics analysis	Helen Smith, BD Biosciences
To control or not: The importance of reference materials for measurement assurance	Sandrine Vessillier, The National Institute for Biological Standards and Control (NIBSC)
Cell sorting for your needs - when one size does not fit all	Morgan Blaylock, BD Biosciences
Assay portability on the BD FACSLytic™	Dave Sowter, BD Biosciences

GSK Lecture Theatre, Stevenage 24th July 2018

Developing Research Flow Panels in a Clinical Lab	Lucas Black, IAVI
TILs – Validating at the Cutting Edge	Karen Smith, Q2 Solutions
BD advancements in automated sample preparation	Ian Gerrard, BD Biosciences
Looking deeper into the cell with genomics analysis	Wieland Keilholz, BD Biosciences
To control or not: The importance of reference materials for measurement assurance	Anna Nowocin, The National Institute for Biological Standards and Control (NIBSC)
Cell sorting for your needs - when one size does not fit all	Morgan Blaylock, BD Biosciences
Assay portability on the BD FACSLytic™	Dave Sowter, BD Biosciences
