

SARS-CoV-2 testing

The BD Kit for Rapid Detection of SARS-CoV-2
at the point of care

The easy-to-use testing kit that provides SARS-CoV-2 results in 15 minutes

Get ready for SARS-CoV-2 testing

When your patients are in need of reliable and rapid SARS-CoV-2 testing, turn to the BD Kit for Rapid Detection of SARS-CoV-2. Offering an easy-to-use point of care test, with results in 15 minutes.

One result¹

- Assay results designed to be read visually
- Indicated for use in both asymptomatic and symptomatic individuals, who are suspected of SARS-CoV-2 infection by their healthcare provider
- Results in just 15 minutes
- Easily performed and interpreted by Healthcare professionals or trained users
- Detection of SARS-CoV-2 antigen (nucleocapsid protein), in nasal swabs
- Reliable results, 91% PPA* compared to reference PCR method
- Provides intuitive sample processing with prefilled, single-use reaction tubes

Time to results:

Control line only =
Negative result

Control line and Test line =
Positive result

1. BD Kit For Rapid Detection of SARS-CoV-2 [package insert]. Franklin Lakes, NJ: Becton, Dickinson and Company; 2021

* Clinical performance data taken from Study 1 in the package insert. Performance established with patients reporting two or more self-reported symptoms.

Clinical performance¹

Positive Percent Agreement (PPA)	Negative Percent Agreement (NPA)
91.1%*	99.6%*
(95% Confidence Interval (C.I.), 80.7%-96.1%)	(95% Confidence Interval (C.I.), 97.9%-99.9%)
Positive Predictive Value (PPV)	Negative Predictive Value (NPV)
98.1%*	98.1%*
(95% Confidence Interval (C.I.), 90.7%-99.9%)	(95% Confidence Interval (C.I.), 96.0%-99.4%)

Negative results do not rule out SARS-CoV-2 infection and should not be used as the sole basis for treatment or patient management decisions, including infection control decisions. Negative results should be considered in the context of a patient's recent exposures, history and the presence of clinical signs and symptoms consistent with COVID-19, and confirmed with a molecular assay, if necessary, for patient management.
